

ERINNE CHERISSE CHUA JOY ONG

Education

De La Salle University (Manila, PH)

Bachelor of Science in Biology

Sep. 2017 – Feb. 2021

- Top 10% of graduating class with cumulative GPA of 3.787/4.0
- Thesis: Cytotoxicity and genotoxicity of *Citrus microcarpa* (Calamansi) juice and essential oil on small cell lung carcinoma, acute monocytic leukemia, and colon adenocarcinoma cell lines

St. Stephen's High School (Manila, PH)

Senior High School Diploma

Jun. 2012 – Mar. 2017

- Salutatorian (2nd out of 140 students) with final year average of 96.53
- Graduated with High Honors for STEM (grades of science subjects >95)

Work Experience

De La Salle University - Advanced Research Institute for Informatics, Computing and Networking (Manila, PH)

Project Assistant

Jul. 2021 – Present

- Worked closely with research leads to build a lexical database for Philippine languages through natural language processing and network analysis
- Produced content on “Diachronic Representation and Linguistic Study of Filipino Word Senses Across Social and Digital Media Contexts” project

Wildtype Media Group (Singapore)

Freelance Writer

Apr. 2022 – Present

Staff Writer

Apr. 2021 – Apr. 2022

- Wrote two to three 500-word research highlights weekly for flagship *Asian Scientist Magazine* based on STEM journal articles
- Produced 1500-word topical deep dives on scientific advancements across Asia with researcher and industry leader interviews
- Steered content direction for client projects ranging from infographics to thought leadership pieces on precision medicine, deep tech, sustainability

Professional Training

Fundamentals of Neuroscience – Neurons & Networks

Harvard University (edX, massive online open course platform)

Feb. 2021

- Covered synaptic anatomy, excitation and inhibition, neuromodulation, neurotransmitter and receptor systems, synaptic and non-synaptic plasticity

Data Science Short Course – COVID Edition

De La Salle University (Manila, PH)

Oct. 2020

- Delivered by Prof. Jennifer Widom (Stanford University)
- Covered data analysis using spreadsheets, SQL, Python, and Tableau

Skills

scientific techniques: cell culture revival and maintenance, cell viability assays, genotoxicity assays, DNA extraction, polymerase chain reaction, fluorescence microscopy, gel electrophoresis, spectrophotometry, protein homology modelling

media: journalistic writing (science, sports, features), editing and proofreading, digital and print publishing, web copywriting, social media management
